- SOS Alarm
- Vehicle Diagnostics

Meitrack OBDII Vehicle Guard

20 Years of Experience in Vehicle Diagnostics

10 Years of Experience in GPS Tracking

WHY NEED ONE?

Several millions of vehicles are lost every year.

Nowadays anti-theft alarm for vehicles is not even enough. Get a more full-scale device to keep your vehicles right under your nose by real-time tracking.

Have you ever known your vehicle's status and security?

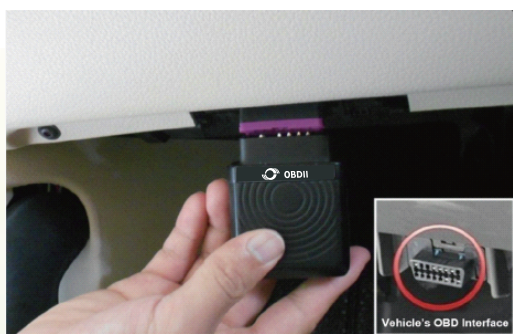

Do you really know your vehicles' problem before maintenance. To build security, take precautions and get one.

HOW DOES IT WORK?

■ SIMPLY PLUG :

Free of complicated cable installation

Easily match your vehicle's OBD interface and hide your vehicle by extension cable.

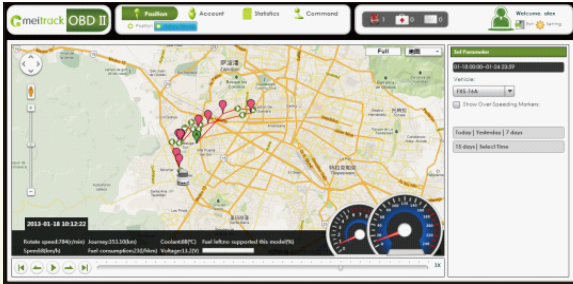

■ GPS TRACKING:

Track your vehicle by mobile phone and computer, and receive SMS or online location.

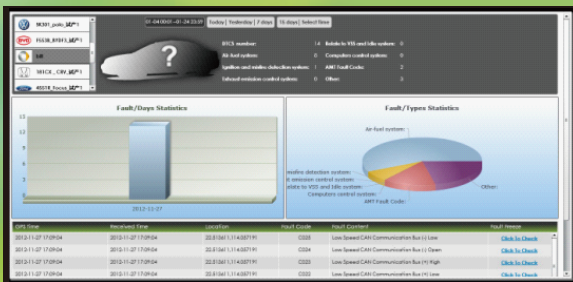

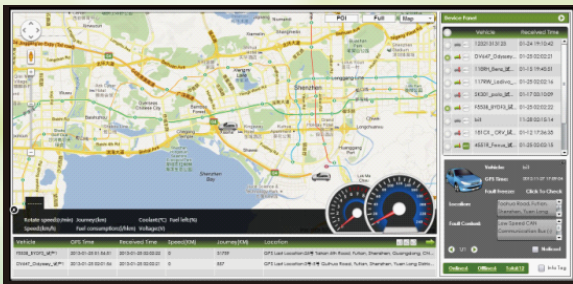

Get your travelling report from Meitrack Family OBD GPS Tracking System.

ON-BOARD DIAGNOSTIC:

Remind you safe driving: Off-gas Emissions / Car Status

Manage your economical driving: Petrol Consumption / Petrol Mass / Petrol Cost

WHY MEITRACK TC68?

TC68 is special designed for car owners, the hardware and software are user-friendly. Come and discover more useful functions!
